Phase One P3-II

Transport solutions

Suitcase for P3 & the DJI M300 drone

Made to pack all your entire drone kit including the M300 and P3 payload together with all the accessories you will need in one single ruggedized transportation case. The M300 Pelicase simplifies the transport and keeps all the components at hand and secured. The case is also ideal for harsh environment operation and shipping.

Weight	14 kg (empty)
Storage	Yes
Long distance transport	Yes
Wheels	Yes
Secure	2 locking point

Quick deployment mount for DJI M300

Made to facilitate field operations where constant mobility is key to achieving the highest possible productivity. The mount eliminates the need to disassemble the UAV and remove the P3 Payload between flights, shortening the setup time and reducing the chance of damages. The mount is purpose built to be placed in the back of your vehicle, on a car seat or anywhere else where storage space is limited.

Specifications	Quick deployment mount for Phase One P3 & DJI M300
Compatibility	DJI M300 RTK Phase One P3
Dimension	550 x 500 x 200 mm
Weight	2.65kg (empty)
